Chairman's Statement

Results

This report covers the six months to 30 June 2011 and does not therefore reflect the adoption of the Proposals which was approved by shareholders at the General Meeting held on 7 July 2011 ("the Proposals"). However, the costs associated with this transaction have been accrued and accounted for in this period, and I will report on this transaction later in my report.

The Net Asset Value (NAV) Total Return per Ordinary Share was 85.69p as at 30 June 2011, comprising a NAV per Ordinary Share of 78.19p and cumulative dividends paid of 7.50p per Ordinary Share. This is a decrease from the NAV Total Return to 31 December 2010 of 8.7%. This reduction is mainly attributable to the interim valuation of our unquoted investments we make using IPEVC valuation guidelines based upon most recently available financial information on trading. Our involvement in Georgina Goodman Limited and its successor company was provided in full at a cost of £254,000 and we also accrued expenses totalling £88,014 in relation to the Proposals.

Investments

One new portfolio investment totalling £575,000 was completed during the period, into Better at Homes Limited, Core VCT V plc also invested £575,000. Further investments were completed into two existing portfolio companies, Intercede 2387 Limited (Georgina Goodman Limited), which was subsequently provided for and Ark Home Healthcare Limited.

The Manager's Review refers in more detail to the prospects of the investment portfolio, which now comprises 10 unquoted investments with a cost of £7.2 million and a value of £7.7 million.

Share Price and Share Buy Backs

The Ordinary Shares (CR4) are fully listed shares. Prices are available on www.londonstockexchange.com and are published in the Financial Times.

We would remind shareholders that we view the NAV Total Return, rather than the share price, as the preferred measure of performance, as it

encompasses the value of the current portfolio and the amount of cash distributed to shareholders over the life of their investment.

The Company does have the ability to buy back shares, although we are not anticipating making any share buy backs for the foreseeable future so that we are best placed as a Company to maximise distributions made to all shareholders.

Adoption of Proposals and Capital Dividend

At the General Meeting held on 7 July 2011 an overwhelming majority of shareholders voted in favour of the Proposals, as outlined in the Circular, dated 9 June 2011. From 8 July 2011, the Company now has a partnership interest of 3.09% in Core Capital I LP. This LP, managed by Core Capital LLP, holds, Ark Home Healthcare Limited, Brasserie Bar Co. Limited, Colway Limited, Kelway Limited, SPL Services Limited and Core Mezz II Limited. New investors have provided £27.3 million of growth capital for these investments.

As part of the Proposals, your Company received £1,392,000 from the new investors and a 10p interim capital dividend was paid on 12 August 2011 to shareholders on the register on 5 August 2011.

Following completion of the Proposals, the proforma NAV is now 61.44p. This NAV is based on the interim valuation as at 30 June 2011 mentioned above but also takes into account the discount on transferring the assets to Core Capital I LP and the payment of the 10p capital dividend.

Outlook

With the Proposals now completed, the focus is on managing the existing portfolio and maximising value in order to progress an exit programme over the next few years. Your Board's intention is to distribute the proceeds of any realisations to shareholders, subject to maintaining adequate levels of working capital and ensuring we retain the VCT status of the Company.

Manager's Review

Investment Highlights

- One new investment was completed, totalling £0.58 million and £0.06 million was invested in two existing portfolio companies.
- Investment Portfolio now comprises 10 unquoted investments with a cost of £7.2 million and a value of £7.7 million.
- The Company was 77% invested in qualifying companies as at 30 June 2011, exceeding the required minimum to be over 70% invested for VCT purposes.
- Completion of the investment programme.
- The investment in Georgina Goodman Limited and its successor was provided for in full, totalling £254,000.

New Investment

In January 2011, Core VCT IV plc invested £0.58 million into Better at Homes Limited ("BAH") (partially utilising Core Mezz II Limited), alongside Core VCT V plc which invested the same amount. BAH complements our existing investment in the sector, Ark Home Healthcare Limited ("Ark"). Following this transaction, Core Mezz II Limited returned £425,000 to both Core VCT IV plc and Core VCT V plc by way of a capital reduction increasing the cash position of each VCT.

Existing Investment

We reported at the year-end that the holding company of Georgina Goodman Limited was placed in administration as part of a restructuring. At this point Core VCT IV plc had invested £203,000. The major investor had agreed to support the company with a £2.2 million injection of cash, to which Core IV plc would contribute £138,000. However, on 2 June 2011, the major investor withdrew their support for the operational restructure and the company was placed into administration. The investment of £203,000 has been written off in full in Georgina

Goodman Limited. However, we invested a further £51,000 in February 2011 through Intercede 2387 Limited, which has acquired the rights and IP of the Georgina Goodman brand. We will continue to hold this investment but as of 30 June 2011 the value has been written down to nil.

We also invested a further £5,000 in Ark by way of a secondary purchase of shares from management.

Since the period end, both Core VCT IV plc and Core VCT V plc have invested £0.75 million and £1 million respectively in Momentous Moving Excellence ("MME") to support working capital requirements. This investment is also held in Core VCT plc and is a long established storage and removals business. The company has a long standing relationship with the Ministry of Defence, for whom MME carries out a significant amount of long term storage. MME has a strong balance sheet with substantial net assets, unencumbered freehold assets and no senior bank debt.

Following the approval of the Proposals on 7 July 2011, we are not intending to make any new investments. Our focus is now purely on managing the portfolio to exit.

Allied is a leading Destination Management Company (DMC) with 26 locations throughout the USA, Europe and the Middle East.

We acquired the business in November 2009 by acquiring all of the senior debt at a substantial discount and to provide working capital funding. The financial year ending December 2009 represented a low point in the business cycle, and we believe Allied has the potential to grow organically and by acquisition into a major global DMC operation. We have introduced new management at a senior level, eliminated senior debt to zero and provided further funding to be used for growth and acquisitions. We continue to hold several discussions over potential merger and acquisition targets.

Trading between FY2009 and FY2010 showed a 17% year on year revenue improvement and for the first 6 months trading of FY2011 we are seeing in excess of a 40% improvement in revenues over the same period of FY2010. We are expecting that Allied will get back to profitability by the end of FY2011, which lifts the company on to the next phase of this turnaround investment.

In the year to 30 June 2011, EBITDA was 12% above budget, despite the challenges posed by winter weather disruption and additional spring bank holidays.

Camwatch is a designer, supplier and installer of detector activated remote CCTV monitoring systems and provides a 24/7 remote monitoring service for over 20,000 cameras across the UK and abroad.

Camwatch has seen significant progress in the roll out of its novel rapid deployment towers (RDT) with well in excess of 300 units now in full operation. This investment is held in a junior secured structure, with the majority of our anticipated return being earned through a paid yield.

The slight decrease in valuation since December 2010 is due primarily to significant debt levels within the business eroding the equity value seen in December 2010. Management is budgeting to significantly reduce debt levels during this financial year, with the aim of increasing the equity value in the company going in to FY2012/13.

Ark acquired three businesses at completion and has completed a number of transactions since, the most recent of which was the acquisition of the New Start Agency in February 2011. Ark has also established a complex care business which provides care to more acute injuries and conditions. It intends acquiring a further 18 businesses over a three year period to build a substantial homecare group.

Notes to the Unaudited Financial Statements

for the six months ended 30 June 2011

1. The unaudited interim results have been prepared on the basis of accounting policies set out in the statutory accounts of the Company for the year ended 31 December 2010. Unquoted investments have been valued in accordance with IPEVC guidelines. These statements have been prepared on a going concern basis and nothing has happened that would change the Directors' going concern assessment from the last audited financial statements to 31 December 2010. In arriving at this conclusion the Directors have considered the liquidity of the Company and its ability to meet obligations as they fall due for a period of twelve months from the date these financial statements were approved. At 30 June 2011, the Company held cash balances of £1.0 million. Cashflow projections have been reviewed and show that the Company has sufficient funds to meet its contracted expenditure.
